

The U.S. Department of Energy's (DOE) National Nuclear Security Administration (NNSA) Office of Secure Transportation / Aviation Operations Division (OST/AOD) will be hosting a Pre-Solicitation Industry Day for the Aircraft Maintenance and Support Services, DE-SOL-0008818, effort on 7 January 2016, at the OST/AOD Hangers located on Kirtland AFB New Mexico, beginning 9:00 AM local time. The industry day will conclude by noon. Interested parties must pre-register for the industry day by contacting Jerry Feery at [Jerome.Feery@nnsa.doe.gov](mailto:Jerome.Feery@nnsa.doe.gov) or 505-845-5430. The following information is required in order to plan for logistics. Company name, attendees name (max number is three per company and must be US citizens), contact information (in case last minute changes are made), and whether attendees can access the base or if they will require sponsorship.

The agenda will be an overview of the general requirement, questions and answers about the requirement, identification of companies interested to include their size standards, and a walk through of the area.

NNSA anticipates that this will be the only industry day held for this requirement.

The purpose of this announcement is solely to announce the Pre-Solicitation Industry Day date and times. The NNSA intends to publish a solicitation by 31 January 2016.

The North American Industry Classification System (NAICS) code for this procurement is 488190, Other Support Activities for Air Transportation, with a small business size standard of \$32.5M.

This is not a request for proposal. Any questions with regard to this announcement must be submitted electronically by e-mail to [ralph.mayer@nnsa.doe.gov](mailto:ralph.mayer@nnsa.doe.gov).
